

ROOSEVELT TALKS NAVY

Former President Makes a Plea For Adequate Naval Strength Scores Congressmen Who Oppose Two Battleships a Year—At Progressive Party Reunion

Newport, R. I., July 2.—"Navy" day with which the Progressive three-day conference opened today, brought thousands of visitors to Newport to hear Theodore Roosevelt speak twice, partake of a Rhode Island clam bake, listen to speeches by several other Progressive leaders and witness a drill of the navy apprentices at the naval training station.

D. Leroy Dresser presided. The navy was represented on the platform by Rear Admiral Charles J. Badger, commander-in-chief of the Atlantic fleet, and other officers.

Among prominent Progressives present were former United States Senator A. J. Beveridge, Oscar Strauss, Gifford Pinchot, Herbert Knox Smith, former Governor Bass of New Hampshire, William Draper Lewis and Joseph Walker.

Newport, R. I., July 2.—Theodore Roosevelt addressed a gathering of Rhode Island leaders of the National Progressive party here today on patriotism and national honor, and made a plea for the maintenance of adequate naval strength. Congressmen who vote against two battleships a year, he said, were "on a level with men who voted against fortifying Hawaii and our stations in the West Indies. These men are unfit to represent the American people, and they by their actions invite a national disaster and humiliation."

He characterized as wicked any advocacy of arbitration where national honor and interests are concerned, and said that to enforce the Monroe doctrine, to retain Panama, Alaska and our insular possessions, to determine what allens and on what terms they shall come to this country demanded the power to "back up our words with deeds."

After scoring those congressmen who opposed a two-battleship-a-year policy, he continued:

"There is, however, a lower depth even than that plumbed by the men who seek by their votes in congress to keep us impotent to protect ourselves. This lower depth is reached by those who, while voting against every measure to provide us with means to protect our honor against any foreign foe, nevertheless, by foolish, brutal and insulting utterances concerning foreign powers, expose us to the liability of a war which they themselves by their own actions have striven to render it impossible for us successfully to undertake."

"There could be no worse type of public servant than those congressmen, who first do all they can to prevent the American people from being able to uphold their interest and honor in the event of war, and then do all they can with wanton and ignorant folly to plunge us into war. Remember always that in such case these men would not themselves be the ones to suffer. They are very rarely sensitive to national honor, and still more rarely willing to expose their persons in the event of there being an appeal to the final arbiter between nations. In such event these men almost always themselves remain in safety, and let their mis-

conduct be atoned for by other men, by brave men who pay for it with their blood, by patriotic men who perform have to pay for it with shame."

Here Colonel Roosevelt took up the situation in China, "which has suffered partial dismemberment purely because she has permitted herself to become impotent in war." If the American people were to follow in Chinese footsteps, he pointed out, doubtless some decades would pass before "we would suffer to the extent of China, but long before that time had come we should have had to abandon all pretense of upholding the Monroe doctrine; we should have had to abandon Panama and Alaska and every insular possession, and we should have had to surrender all right to say what immigrants shall and what immigrants shall not be admitted to our country, and the terms upon which they shall come here and become citizens or hold land. It is a matter of vital concern to all our people, but above all it is a matter of vital concern to our wage-workers and farmers and small business and professional men, to have the undisputed right to decide every such question for ourselves; and our claim so to decide these questions would be treated with utter derision if we did not have an efficient navy and if we did not possess both the will and the power to back up our words by our deeds."

Therefore, it seems to me incredible folly that any of our people should wish to put us in the position of China and should believe that by having worthy persons put their names on scraps of paper, or get together at banquets and pass resolutions, we would be able to substitute some patent remedy like universal international arbitration for a navy. This is especially true when we remember that this country would not for one moment permit any of these vital questions of national honor and interest to be submitted to arbitration. To advocate universal arbitration treaties, the arbitration of questions of national interest and honor, is folly so great as fairly to be wicked.

"It is even worse to advocate such treaties and at the same time show no intention of keeping treaties already made that can be kept, and no intention of submitting to arbitration questions that can properly be arbitrated. There is nothing more important to our international good name than to have our people once for all wake up to the fact that it is unpardonable to show readiness in making promises that cannot be kept and equal readiness in breaking promises that can and ought to be kept. One or two very bad treaties have been made of recent years, treaties which were meant to be taken as making promises which as a matter of fact would not and could not be kept. Other treaties have been passed making promises which could be kept and which ought to be kept, and it is unpardonable not to keep these promises. Let us above all things else have a coherent policy in these matters. Let it be understood that every man who votes to stop building up the navy or stop fortifying the canal is voting to put us in a position where we cannot even resent insult let alone our selves insulting others with impunity. Let us remember that the policy of unyielding the unbridled tongue and the unready hand is a policy of criminal folly. The most dangerous of all positions for any nation is to be opulent, aggressive and unarmed."

The only safe and honorable course to follow is to combine absolute courtesy and justice toward other nations with that preparedness for war which is the only sure means of averting war.

"We have the right to insist on the Monroe doctrine; we have the right to insist that we, and we alone, are to decide as to what immigrants shall come to our shores and as to whether these immigrants shall become citizens or own land; these and other similar rights are not merely rights but duties; we should show the ut-

most courtesy and consideration for the feelings of others in insisting upon them; and we should also realize that it will in the long run be idle to insist upon them unless we are ready to back up our words with our deeds, and that to do this it is necessary to keep our navy of adequate size and at the highest pitch of efficiency."

STANDARD FOR GAMES

United States Delegates to International Meeting Will Urge That All Programs for Olympic Meets Be the Same

New York, July 2.—A standardized games program for future Olympic meets which will have the support of the United States delegates at the Berlin meeting of the International Amateur Athletic Federation August 20-24 has been prepared by James E. Sullivan, American representative of the I. A. A. F. The schedule which the federation will be asked to recommend to the international Olympic committee for the Berlin games in 1916, contains 32 events.

The tentative program is as follows: Track: 100, 200, 400, 800, 1500, 5000, 8000, 15,000, 25,000, 50,000, 100 and 220 metre hurdle races; cross-country races; 2500 metre, steeple chase with fixed brush hurdles and at least one water jump; cross-country run of at least 10,000 metres; marathon run of approximately 25 miles with cross-country race course charted and blue prints furnished at least 18 months before the race.

Fields: Running and standing broad jumps; running and high jumps; running hop, step and jump; pole vault for height; javelin and discus throw; best hand only; shot put, best hand only; hammer throw and fifty-six pound weight throw.

For the relay events the United States delegates will suggest 400 metre flag relay, each runner to run 500 metres straightaway carrying a flag of his own country, to be handed to his relief runner at the finish of run, the race to be run up and down 100 metre lanes, 1500 metre balloon relay race, each runner to run 400 metres; 500 metre team race, each country to start seven runners with five to count at finish.

Other events included are three and seven mile walks or their approximately equivalent in metres; tug-of-war; pentathlon and decathlon.

For competition other than the regular Olympic events are proposed rifle, pistol and shot gun shooting, rowing, tennis, soccer, military riding and modern pentathlon. The swimming program contains: 100 metre swim; 100 metre back-stroke; 200 metre breast stroke; 400 and 1500 metre swim, 400 and 1500 metre relay races, fancy and high diving; water polo.

The Americans will request that the

Greco-Roman wrestling be dropped in favor of catch-as-catch-can style and that boxing be added to the supplementary program.

In case soccer football or cricket is scheduled the delegates will request that baseball be added, as it is now played in the United States, Canada, Australia, France, Sweden and England.

A special rider will accompany the resolutions suggesting that a grand Olympic trophy be donated and awarded to the country scoring the most points in the recognized features of the Olympic meet at Berlin in 1916 and that additional trophies be awarded to the winning team in each division of the sports as emblematic of the championship in that particular department of competition.

MANY TO COMPETE IN CHICAGO GAMES

Chicago, July 2.—College track and field athletes of national prominence will compete today in connection with the international games at Grant park. Entries have been received from colleges in widely separated sections of the country and the list includes champions in their respective events at the intercollegiate meets. Reassurance is assured with the possibility that several records will be equalled or beaten.

The first five events of the decathlon will be decided in the afternoon. The program will be concluded this afternoon with an exhibition drill by a troop of the Fifteenth cavalry. Tonight there will be Sunday school races, an amateur wrestling tournament, a weight lifting contest and tugs of war and rough riding by cowboys.

25c to Ogden Canyon and return including free concert and free dance.

PRESIDENTIAL NOMINATIONS

Washington, July 2.—President Wilson today made the following nominations: United States judge for the western district of Washington: Jeremiah N. Torrey. Surveyor general of Wyoming: Charles L. Decker of Wyoming. Postmaster: Bryan Millard, San Jose, Cal. Receiver of public moneys at Phoenix, Ariz.: J. J. Birdno. Registers of land offices, Thomas P. Weed at Phoenix.

LADY GIVES POINTS TO MANY FRIENDS

Wife of Salt Lake City Railroad Man Made Test of Plant Juice

Mrs. Isom of Salt Lake City, wife of A. M. Isom, a well-known railroad man, of whom make their home at the Moxam hotel in this city, has thoroughly tested Plant Juice and has something to say that all who are not familiar with new product should read.

"Yes, I have tested your Plant Juice and I am safe in saying that it is a grand, good proposition that everyone who suffers with dyspepsia and nervousness, as I have, should by all means take. It relieved me quickly and effectually. I have never taken anything that I regard so beneficial as Plant Juice. I am telling all my lady friends at the hotel about it, and some of them are going to take it for its tonic effects."

There are few people, indeed, who do not find immediate and lasting relief in the use of Plant Juice. When it enters the system it begins the work of cleansing, of dissolving and eradicating all toxic poisons. It will put new life, energy and vim into you. Plant Juice is an absolute specific for all derangements of the stomach, liver, kidneys and blood. It will do you more good than anything you have ever taken. For sale at the McIntyre drug store, 2421 Washington avenue.

All the produce houses in the city will close at 1 p. m. Saturdays during July and August.

NOTICE

Union Barber Shops will close at 11 p. m. Thursday, July 3, and remain open till 10 p. m. Thursday, July 3.

quoted abroad. Canadian Pacific declined a point. Changes otherwise were fractional. Dealings were larger in Union Pacific, which declined 5-8 on the sale of several large blocks.

The artificial character of the early selling was disclosed when the bears attempted to buy at the low prices. No stocks were available for covering except on a rising level and the list worked up to above yesterday's close.

In the afternoon firmness was visible at all points. The money market showed lessening of tension counted on after the half year disbursements. Time funds shaded measurably despite the loss of \$9,500,000 in sub-treasury operations.

Chicago Grain.

Chicago, July 2.—Advices that ocean freight room to the extent of 70 boat loads had been taken at New York turned wheat upward today after an easy start. The tendency to weakness at the outset was due to lower cables and the bearish crop outlook northwest. September first sold at 89½ to 89.50c, a sixteenth to 1-8 1-4 down and then rose to 90.1-8c. Sentiment of offerings strengthened corn. September started 1-3 1-4 higher at 61.7-8c and advanced to 62½c.

Oats went up because rural tenders were practically nothing. September opened 1-8c lower to 1-8c up at 42.1-8 to 42.3-8c, and advanced to 43c.

Free buying on the part of packers carried provisions sharply higher all around. Opening prices were 2½c to 2½c up, with September options \$20.92½ to \$20.95 for pork; \$11.42½ to \$11.50 for lard, and \$11.90 to \$11.95 for ribs.

Wheat—Later there was a reaction, especially in July, but export business from here via the gulf caused renewed firmness. The close was steady at 90.1-8c. September ½c net higher at 90.1-8c @ 90.1-4c.

Corn—A further advance ensued despite considerable selling by locals. The close was steady at 62.5-8c for September, a net gain of 7-8c @ 1c.

EXCURSION OF LOCAL ELKS

Ogden lodge No. 719, B. P. O. E., has made definite arrangements for a special tour of Yellowstone park, "Wylie Way" in a special all steel train that will accommodate 125 persons. The train will leave Ogden August 5 and the tour is limited to 125 persons.

The trip through the park will extend for six days after the tourists have reached the entrance. This means that an additional day to the regular tours will be spent viewing the wonderland. It is probable that the extra day will be spent at Grand canyon.

W. D. Weller, exalted ruler, will leave Saturday for a trip through the park to map out the itinerary. Because of the low rate, \$5.55 for the entire trip, it is expected that the reservations will be taken long before the time arrives for the tour to begin.
